EXCELLENCE SINCE 1983

Despite its folksy charm, Balboa Island is still part of chic, fashionable Newport Beach, and several ultra-stylish boutiques will prove it. The current fave is **Sydney Michelle** (#307; 673-2150), where popular designers like Paper Denim & Cloth share space with hot newcomers like Noelle, and VIPs go straight to the private shopping lounge upstairs.

... tiny, but packed with an impressive array of trendy fashionistas like Michael Stars, along with Asian-inspired jewelry and Japanese pottery. Located with a beautiful garden to stroll through to the back of the store, it's a great place for a shopping spree. A collection of designer special occasion wear is available in the garden.

The store is well-stocked with everything you could want in a jewelry store. It's a great place to find a special gift for a friend or a loved one.
